

Food Processing Band Saw

A16

AKIYAMA

- Quiet sound rotation
- Switch off and brake operate simultaneously
- Easy speed selection
- Stainless wheels
- Emergency stop switch installed

Food Processing Band Saw

A16

Highly efficient machine of various use.

Best used in the secondary processing tuna, swordfish and bonito. Also, used in finishing cut, chunk, a cube or any shape you may wish. And more!

This can also process any other frozen meat, lobster and crabs.

Safety design.

The emergency stop button is installed. A push on a button stops rotation of a band saw promptly, and the brake operates simultaneously with Switch OFF by a motor direct connection drive pulley.

The change of high speed and a standard speed is one-touch.

The rotation frequency of a band saw can be chosen according to foods. Therefore, this is efficient in curve cutting. Beautiful cutting surface with less end powder.

Motor direct connection drive pulley.

The blade wheel is connected to the motor shaft. Therefore, few power-loss. Runs smoothly with little noise and less vibration.

Easy maintenance.

The desorption of a band saw can also be made easy by a rotation type tension handle. There is no necessity for lubrication and a grease up. Since there are caster wheels,

Stainless steel wheel equipment.

Since the wheels are made of stainless steel casting, this is corrosive-free and can respond to a high speed revolution. The sanitary side also improved much more.

Space-saving design.

Since the machine occupies only an area of 1050mmX1000mm, it is also suitable to use in a narrow back yard.

The answer to your needs.

There are two types of blade to choose from, 0.5mm thick and 0.36mm. Modification is also available to fit your need, such as installation of signal light, revolving light, etc. Motor power too is available in 1.5kw and 2.2kw motor power.

Specifications

| | |
|----------------------------|----------------------|
| Max cutting height | 400mm |
| Dimensions (table) | 950mm x900mm |
| Height (table) | 850mm |
| Dimensions (machine) | 1050 x 1000 x 1900mm |
| Weight | 240kg |
| Power source | 200V 3-phase 50/60Hz |
| Motor | 1.5kw 4P |
| Band saw revolutions speed | 1680/2240m/min |
