

The machine which cuts crab's and claw round

MC2

Best crab-shell cutter that cuts without affecting the dignity of the meat.

Easy crab-shell cutting by just placing the leg to cutting and rotating it. Best also for preparation of different dishes.

Easy adjustment of cutting-depth.

Since the cutting-depth can be adjusted freely by simply adjusting plastic crab leg/claw holder, any kind of crab can be processed with this machine.

Equipped with two cutter, so efficiency is doubled.

The two cutters work simultaneously, two person can do two jobs at the same time.

All stainless steel, cleaning is easy.

The main part is all stainless steel. Washable with cold water and is preeminent also for corrosiveness-proof.
